

## Education Grant Application

### Grant Application Guidelines

The Sight and Life education grants are designed to assist students or young professionals to support their studies in nutrition or public health at a bachelor, master or PhD level. The grant is aimed at students who would otherwise be unable to undertake further studies.

Sight and Life will review applications on a case by case basis, and will aim to respond to you within one month of receiving the application.

### Grant Application Process

The following documents are required to be submitted with the grant application:

- Current Curriculum Vitae
- Letter of motivation (1-2 pages)
- Letter of acceptance from the University for the proposed (Bachelor, Master, PhD) studies
- If applying for support of a PhD, please supply a short description of your research topic
- The total costs, separately indicating tuition fees and living expenses in both the local currency of the country where the University is located and Euros.
- The portion of the costs you are applying for from the Sight and Life education grant
- Full banking details of the University or individual for Foreign Payments as per Annex 1 together with the reference that must be quoted when the payment is made.

Submissions must be addressed to [info@sightandlife.org](mailto:info@sightandlife.org)

Given the high number of application we receive we strongly advise you to invest time in compiling your application, to ensure it is as comprehensive as possible when it is reviewed.

Note: Sight and Life will give preference to grant fund applications where co- funding has been secured. Once the grant applications have been reviewed, a decision letter with the Committee's comments will be sent to the applicant. In the case that your application is successful it is important to note that payment will only take place 90 days after receiving confirmation of your success.
